The Honorable Xavier Becerra
Secretary U.S. Department of Health and
Human Services
200 Independence Avenue, S.W.
Washington, D.C. 20201

Dear Attorney General Garland and Secretary Becerra:

I write to address my serious concerns about a recent sealed indictment involving a criminal investigation by the Department of Justice (DOJ), Department of Health and Human Services (HHS), and other federal agencies. Specifically, I'm alarmed by the conduct of this investigation against a whistleblower.

Dr. Eithan Haim has shared his story with the media. For background, in May 2023 he exposed that a hospital with a presence in my district was performing transgender medical procedures on minors. This hospital had previously claimed to have paused such interventions following a Texas Attorney General Opinion, which advised that these procedures could constitute criminal child abuse under Texas state law.

On June 23, 2023, Dr. Haim was approached by two agents from the HHS Office of Inspector General inquiring about "medical records." They informed him that he was a "potential target" in an unspecified criminal investigation and requested an interview. This came in a letter signed by Assistant U.S. Attorney Tina Ansari from the U.S. Attorney's Office for the Southern District of Texas.

A letter to Congress from Mr. Haim's lawyers reveals that the DOJ prosecutor later admitted she had never reviewed the supposed evidence against Dr. Haim before considering him a target. DOJ policy dictates that this must be done in advance.

The DOJ prosecutor talked about aggressively prosecuting Dr. Haim, including charging him with a felony and trying him by jury even on a technicality. It appears that the prosecutor has now followed through on those threats and charged Dr. Haim with multiple felonies.

This situation demands a thorough and transparent review to ensure that justice is served fairly and without political bias. Given these clear discrepancies, please produce the following material:

1. All documents and communications referring or relating to the investigation into Dr. Haim;

2. All documents and communications referring or relating to the decision to indict Dr. Haim;
3. All documents and communications referring or relating to the use of confidential human source(s) in connection with the investigation into Dr. Haim; and
4. All documents and communications between or among the Department of Justice, the Department of Health and Human Services, the Department of Homeland Security, or the Executive Office of the President about the investigation into Dr. Haim.

I look forward to your prompt action and attention to this important matter.

Sincerely,

One year ago today, armed federal agents with HHS arrived at my door. For blowing the whistle, I became a target of a federal criminal investigation.

Over the next six months I remained silent. I saw how the gears of corruption were being deployed to destroy everything I worked for. By withholding the truth, I was playing the role required to maintain their gambit.

They wanted me to believe the only option was to submit. But there was another - to fight back. One path starting with shame and leading to destruction, the other starting with sacrifice but leading to dignity. If this truth was self-evident the path forward was as well - we had to fight back.

When we started it was just a few of us. But now there are millions. We are eternally grateful for everyone who has stepped into the arena with us.

DOJ wants to limit my defense by restricting testimony on "transgender care."

They say my use of "mutilation and sterilization" is "inflammatory and inaccurate."

They don't realize, the opposite is true.

So DOJ needs a show trial to avoid confronting reality.

GOVERNMENT'S PRETRIAL MOTIONS

United States v. Haim (4:24-cr-00298)
Motion in Limine, September 6th, 2024.
Page 4.

TO THE HONORABLE DAVID HITTNER:

The Government respectfully submits this memorandum of law in support of its pretrial motions with respect to the upcoming trial of defendant Eithan David Haim ("Haim," or "the defendant").¹ Specifically, the Government seeks rulings:

- (1) Precluding the defendant from using the term "whistleblower" before the jury;
- (2) Limiting testimony and argument regarding issues pertaining to transgender care;

DEFENDANT'S STATEMENTS TO THE MEDIA

United States v. Haim (4:24-cr-00298)
Motion in Limine, September 6th, 2024.

Before and after the Indictment, the defendant and his attorney gave multiple interviews on television, podcasts, and other media forums, in which the defendant admitted to leaking the TCH patient information to Person1.³ During these interviews, the defendant and/or his counsel made statements:

- Providing inaccurate and inflammatory descriptions of the medical care previously provided by TCH for pediatric patients with gender dysphoria, for example, as "mutilation," and "sterilization;"

Anatomy of lawfare.

1) Use an ill-defined law as the basis for unprecedented charges, transforming the target's virtue into a crime - like using HIPAA to target a whistleblower while casting major hospital system as the victim.

2) They then run cover and bury the truth by limiting any meaningful legal defense - why they want no mention of "whistleblowing" or harmful transgender procedures continued in secrecy.

3) Even if they lose in trial, they still achieve the primary goal - make it so the process becomes the punishment.

4) The oil propelling this machinery forward is the silence of the target. By following the standard convention that criminal defendants stay silent, the corruption remains concealed, the false perception of legitimacy maintained, the illusion of normalcy perpetuated.

So, the question is this - should we stay silent and play a central role in our own destruction? Or should we fight back, stand up for the truth, and defend our virtues?

So, the question is this – should we stay silent and play a central role in our own destruction? Or should we fight back, stand up for the truth, and defend our virtues?

At this point the answer is obvious.

COUNTS TWO - FOUR

From in or around January 2023 to on or in or around May 2023, in the Southern District of Texas, the defendant, **EITHAN DAVID HAIM**, knowingly and without authorization, and for a reason other than those permitted by Title 42, United States Code, Chapter 7, Subchapter XL, Part C (provisions of HIPAA), did obtain and/or use individually identifiable health information under false pretenses and with intent to use the individually identifiable health information to cause malicious harm to TCH and its physicians.

Underlying the sheer incompetence in my case is something more sinister.

DOJ is inventing criminal law to codify the prosecution of whistleblowers at the behest of the major hospital systems they expose.

If permitted, medical whistleblowers will become a historical relic.

The implications are staggering. If a hospital can prohibit disclosures to law enforcement (*see* 45 C.F.R. § 164.512), it can, for instance, criminalize reports of its own criminality. And if the government offices involved are ideologically aligned, prosecutorial discretion will not save a whistleblower from being punished.

Yet that fact pattern does not exhaust the potential absurdities. Indeed, the more mundane and insignificant the rule, the more egregious for receiving a criminal penalty for its violation. Consider a rule that prohibits doctors from obtaining patient information except through their own EMR accounts. Even though a doctor might have every right to a patient's information under the Privacy Rule because he is treating that patient, it becomes a crime for the assisting nurse to show the doctor that patient's chart. Or consider a rule requiring that doctors using remote access have a safe workspace at home before logging on. Does a malfunctioning smoke detector render a doctor a criminal, too?

They had no problem taking away my right to possess firearms knowing the legitimate death threats I would face from radical transgender activists.

And I don't bring this up to garner sympathy for myself but rather to demonstrate the magnitude of their hypocrisy.

They have no problem with any of the above, but they have a major problem with anyone noticing it happening.

Their corrupt gambit relies on the silence of their target to legitimize their corruption. In my case, they knocked on the wrong door. I simply refuse to voluntarily comply with my own destruction.
